ENCLOSURE: Aerial photograph of Andreyev Petroleum Refinery

REQUIREMENT RR/HTA/E/R2/57: Describe changes since World War II in the Andreyev Petroleum Refinery.

REMARKS:

The Andreyev Petroleum Refinery, located in the eastern section of Baku, is one of five refineries comprising the Waterfront Group. This group constitutes the largest petroleum refining development in the USSR.

25X1D

A comparison of [redacted] photography with that of [redacted] reveals that six large shell still batteries in the eastern section of the plant and one battery in the western section have been razed. Another shell still battery in the northernmost section of the plant has been partially dismantled. Additional equipment has been added in the north central part of the plant, and the layout of equipment has undergone minor changes throughout the plant.

25X1D

Haze and smoke preclude a more detailed analysis of the [redacted] photography.
